Foreword

TO GIVE the graduates of Minnesota High Schools an intimate knowledge of the number, size and character of the institutions of higher education in their own state, is the mission of this booklet.

This outline of the courses, policies and advantages of the eleven leading Minnesota Colleges should be invaluable to graduates and parents. It will assist them in making a selection of the college best suited for their requirements and which is to be intrusted with the final educational work and guidance which is such a vital factor in the careers of the young men and young women of the state.

The policies of these Minnesota colleges are widely progressive, yet wisely conservative, and embrace a wholesome and worthy idealism. They cherish the belief that higher education and scientific knowledge must be accompanied by the best of moral culture and feel it their duty to bring out the noblest qualities in each individual.

Thousands of successful men and women attribute their achievements to the thorough and constructive training, inspiration and vision received at one of these Minnesota colleges and to the friendships formed during their college days.

The advantages to residents of Minnesota of attending the colleges of the state are many. The student is close to home ties and the expenses are at a minimum. In addition to these advantages Minnesota students have further advantages in that the majority of the students are, like themselves, Minnesota people, and will remain in Minnesota after graduation.

This means a continuation after graduation of college friendships and contacts established with their alma mater which is of increasing pleasure and value in succeeding years.

Full information will be gladly sent you by any of the colleges upon request.

DONALD J. COWLING, *President*

A CHRISTIAN College of ARTS, SCIENCE, MUSIC for graduates of accredited High Schools and Academies.

Eight hundred students are enrolled during the year 1921-22 in the regular four-year courses leading to the bachelor degrees. The number of teachers offering courses is sixty-five. The ratio of instructors to students is significant.

No one is employed in the work of teaching whose rank or salary is below that of an instructor, fully recognized as a member of the faculty.

The Trustees undertake to provide comfortable surroundings for students and teachers and furnish all the reference books, laboratory apparatus and other equipment that may be necessary for the proper development and illustration of each course offered.

A chapter of Phi Beta Kappa, the national honor society in scholarship, was granted to Carleton in September, 1913. A chapter of Delta Sigma Rho, the national honor society in public speaking, was established at Carleton in 1911; and a chapter of Sigma Delta Psi, the national athletic society, in 1920.

Carleton has remarkable records in debate, oratory, and athletics.

A Summer School of Chemistry will open Monday, June 26, and will close on Thursday, August 10. This school is for teachers of chemistry and students beyond the Freshman year.

Northfield is an ideal college town, forty miles south of the Twin Cities, on three railway lines; the Minneapolis, Northfield and Southern electric railway; and the Jefferson Highway. The skyline of the college buildings is clearly seen to the east, beyond the Cannon River. You are cordially invited to visit the grounds and buildings, where you will find a campus of about fifty acres, many beautiful buildings, an athletic field of fifteen acres, the Lyman Memorial Lakes, and the college farm of about 300 acres adjoining on the north. The total assets are valued at nearly $3,000,000.

For a guide to the buildings or for information regarding enrollment in the college, work, loans, scholarships, etc., apply to Edwin B. Dean, Chairman of the Board of Deans, 101 Leighton Hall, Northfield, Minnesota.

The College of St. Catherine

ST. PAUL, MINNESOTA

A Standard Catholic College for Women

STRICTLY A COLLEGE OF THE LIBERAL ARTS

THE College of St. Catherine is the only exclusively woman's college in the Twin Cities. Beautifully situated on a wooded upland overlooking the Mississippi and Minnesota river valleys, midway between St. Paul and Minneapolis, it combines the advantages of country life with access to city privileges.

BUILDINGS AND FURNISHINGS

The beauty, size, and furnishings of the buildings entitle them to rank among the finest college buildings in the country. Each building has all modern improvements and conveniences, including passenger elevator service.

ALUMNAE

Twenty-seven per cent have studied for the higher degrees, A. M. and Ph. D.

Three per cent follow professions as librarians, laboratory technicians, or business managers. Of these one is head of a nurses' training school.

Seventy per cent are teaching at the present time.

ENROLLMENT

Since 1911, 1,410 students have enrolled at the college. These represent in all fifteen states, Canada, Germany, Ireland, and France. The enrollment has increased from eighteen in 1911 to 280 in 1921. The graduating class of 1922 numbers 31.

OPPORTUNITIES

Graduates of The College of St. Catherine may pursue higher education in any of the first class universities, or secure remunerative positions, as they desire, for the degree has international recognition.

STANDARDIZATION

The college was standardized by the North Central Association of Colleges and by an Examining Board from the University of Minnesota, in 1916. It is on the approved list of the Catholic Educational Association and the Association of American Universities. It holds membership in the Association of American University Women.

PURPOSE AND IDEALS

The life of the college is planned with a view to develop a strong sense of reliability and responsibility in the individual student. No efforts are spared to develop high standards of Scholarship and Service, to instill genuine Catholic principles and ideals of conduct and of life, and at the same time to engender a generous sympathy for excellence of every sort.

For the Higher Education of Women

Rating — The College holds membership in the North Central Association of Colleges. It is accredited by the Association of American Universities. It is registered for Teachers' License by the New York Board of Regents. Its graduates are eligible for membership in the American Association of University Women.

Faculty — The members of the College Faculty have been trained in European Universities and in the graduate schools of American Universities.

Degrees — The College confers the degrees of Bachelor of Arts and Bachelor of Science.

Training — The College trains for high school teaching and for professional scientific careers.

A standardized Conservatory of Music is maintained in connection with the College.

Scholarship — The highest degree of scholarship is enjoined and maintained. Alumnæ in professional careers in fourteen states and in two foreign countries bear evidence to this.

Location — RAILROADS: Winona is accessible by five lines of railroad: The Chicago, Burlington & Quincy; the Chicago, Milwaukee & St. Paul; the Chicago & Northwestern; the Chicago & Great Western; and the Green Bay & Western.

AUTOMOBILE TRAILS: Three trails run through Winona: The Mississippi Scenic Highway; the National Parks Highway, and the Black and Yellow Trail. The latter crosses the College Campus.

Student Body — The students are drawn from fifteen states and five foreign countries.

Home Life of the Teresans — In seven perfectly appointed residence halls, the home life of the students is fostered in the simple, gracious, elegant atmosphere of the ideal American home.

Sports — INDOOR: A large and thoroughly equipped gymnasium affords opportunity for every athletic interest.

OUTDOOR: College open air sports include basketball, tennis, hockey, canoeing, skating and climbing the bluffs.

Social Life — The social life of the students is regulated according to the standards of the careful, conservative American home.

Information — Information regarding the College may be obtained by addressing the Secretary. The name and address of the nearest Teresan will be furnished anyone who requests it.

THE ARMORY

College of St. Thomas

ST. PAUL, MINNESOTA

THE College of St. Thomas is situated in a spot of rare natural beauty, midway between St. Paul and Minneapolis. While it is near enough to the Twin Cities to share the advantages which proximity to two great centers of culture and commerce affords, it is sufficiently remote from the distractions of city life to be an ideal place for the studious pursuits that are essential to the training of youth.

The institution comprises the Collegiate Department, Arts and Letters; Engineering and Commerce; a High School Department; and a Commercial School. It is a diocesan institution conducted by diocesan priests, under the control and direction of the Archbishop of St. Paul. The faculty is composed of priests and laymen selected for their experience, breadth of culture, and zeal in educational work.

The College combines the finest Catholic training with military discipline. The courses of Military Science and Tactics are prescribed by the War Department. They do not trench on scholastic instruction, and are obligatory on all classes up to and including the fourth year high school. The military courses are optional in the College Department.

The College is equipped with splendid buildings, grounds, library, and laboratories.

PRESIDENT'S RESIDENCE
COLLEGE COURT

Concordia College

MOORHEAD, MINNESOTA

CONCORDIA is a co-educational institution conducted under the auspices of the Lutheran Church. Its location at Moorhead makes it easily accessible to prospective students, as all railroad lines in western Minnesota center at Moorhead and Fargo. Moorhead and Fargo together have a population of over thirty thousand and is distinctly an educational community, having two colleges, one State Teachers' College, and a State Agricultural College located in these two cities.

The college offers opportunities for high school graduates who wish to prepare for different lines of work, such as high school teaching in ordinary subjects, Public School Music and Drawing, Commercial Teaching, Manual Training, and Domestic Science. Detailed information can be secured from the college office as to any of these courses. In addition to preparing for the teaching profession, the college courses are arranged for such students as wish to take up professional training in Law, Medicine, Theology, and similar lines, after their graduation.

Expenses.—An attempt is made to keep expenses down for the student. It is possible for a student to stay a year at the college and take care of his board, room, tuition, books and incidentals, with an outlay of from $125 to $500. There are some opportunities offered for self-support while at the college to a limited number of students in dining hall work and janitor work. A student who is energetic and willing to work can also secure some work in the two cities—Fargo and Moorhead—to help pay his college expenses. It is not recommended, however, that students who come to school for the first time should come with the expectation of getting work the first year.

Scholarships are open to high school graduates for the year following their graduation provided they maintain the required average in their college work during the year. Scholarships apply on tuition bills.

In athletics the college is a member of the Minnesota State Conference.

Catalogs and other information as to courses and expenses will be sent on request. Address all inquiries to

Secretary, Concordia College,
Moorhead, Minn.

Gustavus Adolphus College

ST. PETER, MINNESOTA

Founded 1862

GUSTAVUS ADOLPHUS COLLEGE is pleasantly located on the western hill of the Minnesota River, overlooking the most beautiful valley in the state. Our city furnishes most of the advantages of the larger cities together with the order, freedom and sociability of the smaller city.

EQUIPMENT

The College Plant is adequate to accommodate five hundred students. A group of ten buildings provide room for the different departments. The "Old Main," the Auditorium, Library, and South Hall containing forty class rooms, Chemical, Physical and Biological Laboratories, Society Halls, Music Studios, Practice Rooms, and College Offices.

A New Gymnasium, with all the modern improvements will be ready for use next school year. This has just been completed at a cost of $150,000. *Physical Education and Athletics* are considered important parts of our college work.

FACULTY

University trained teachers of many years' experience constitute the faculty. Thoroughness is the watchword.

DEPARTMENTS

The institution comprises four departments: *The College*, offering three courses—*Classical*, *Scientific* and *Historical* and *Social Science; The Academy*, *The School of Commerce*, and *The Conservatory of Music.*

STANDING

Our institution is a member of *The North Central Association of Colleges and Secondary Schools.* Our graduates are admitted to all leading colleges and universities.

ADVANTAGES AND IDEALS

Four hundred and fifty dollars pays all expenses for the school year. Social atmosphere is wholesome and homelike, with no excess of social distractions.

The Aim of the Institution is to provide a thorough liberal education, based on and permeated by the principles of Christianity.

MANOR HOUSE - WOMENS' DORMITORY

LIBRARY

Hamline University

ST. PAUL, MINN.

HAMLINE UNIVERSITY is the oldest institution of collegiate grade in Minnesota. It is co-educational and is ranked in Class A among the leading American colleges. The university is admirably located in the Hamline district midway between the Twin Cities, a district distinctly suburban yet having all the opportunities of a great metropolitan center.

Expenses are as moderate at Hamline as at any other college with equal advantages, and opportunities for self help are unsurpassed.

The university is carrying out an extensive building campaign. The completion this year of a new dormitory for women, accommodating over a hundred students, a refectory with dining capacity of two hundred and fifty, and the new Norton Athletic Field, one of the best inclosed college fields in the Northwest, has marked the beginning of a physical expansion plan to be carried on during the next decade. The college curriculum has also been enlarged this year by additional courses in business.

A campaign for a million and a half dollars will be launched soon to increase the endowment fund of the school.

A decided increase in faculty and student body, a higher scholastic requirement for admission, triumphs in forensic contests and athletics, and the growth of Christian life and work among the students have tended to make the past year a landmark in the history of Hamline University.

Macalester College

SAINT PAUL, MINNESOTA

SITUATED in the midst of stately forest trees on a forty-acre campus, Macalester College is in easy access to the cities of St. Paul and Minneapolis. The many advantages of both great centers may be enjoyed by the students.

Macalester College offers four years of regular liberal arts courses; also three years of study of the liberal arts, the fourth year being devoted to all technical courses given elsewhere.

The outstanding effort is toward the individual development of each student. This embraces a close observation of the character and native ability of each student with the guidance and interviews necessary to achieve the full realization of individual capabilities.

Our records show that an average of eighty per cent of Macalester students have, either in part or wholly, worked their way through the college.

Over twelve per cent of the students have been sons and daughters of ministers. This has led to the establishment of the P. K. Society, composed entirely of "preachers' kids." The selection of Macalester by many ministers for the education of their children proves their faith in the wholesome Christian atmosphere of this college.

The tuition is $120.

St. John's University

COLLEGEVILLE, MINN.

ST. JOHN'S is a residence school for young men. It is the oldest Catholic college in the State, having received its charter from the Territorial Legislature in 1857. With far-sighted vision, the founders, under the leadership of the Reverend Cornelius Wittmann, O. S. B., located the first rude building in one of the most romantic and favored spots of central Minnesota. The University overlooks one of the prettiest lakes in the locality and some very picturesque scenery.

The growth of the University has been slow but sure. Building after building has arisen to meet each new educational demand. Even now, a new $150,000 College Hall is under construction for the special convenience of college men. The present impressive ensemble of buildings is concrete and eloquent testimony of the progressive spirit of the faculty and their untiring devotion to a great cause.

St. John's is conducted by priests of the Order of St. Benedict—the Order whose long list of achievements in the interest of civilization and culture, extending through 1,500 years, has elicited the highest praise from all historians.

The University comprises three divisions: the School of Divinity, or Seminary, the College and the College Preparatory School. Courses are offered leading to the degrees of Bachelor of Arts, Bachelor of Philosophy, Bachelor of Science and Master of Arts. A special Department of Music has existed for many years for those who desire to major in that branch. All classes are divided into small units to allow of the greatest possible attention of teacher to individual student. The total enrollment in all courses is usually about 480.

Every opportunity for sport is generously offered. A new athletic field covering seven acres will be ready for use next September.

GENERAL EXTENSION DIVISION

THE Extension Division offers extramural courses during the late afternoon and evening, in the several branches of study of both preparatory and collegiate grade.

High school graduates who are unable to register for full time resident study may, while working at some gainful occupation, enroll in the late afternoon and evening classes in the Extension Division, and thereby take courses leading toward a college degree. Preparatory work is offered for adults who have not finished high school, thus enabling them to make up their necessary credits and continue with a regular university course.

A correspondence study department, where a number of courses of both preparatory and collegiate grade are offered, is maintained for the benefit of many who are unable to attend classes at the University. University credit is given to students having the necessary prerequisites; the preparatory courses carry entrance credit.

Complete information may be obtained by addressing the General Extension Division, University of Minnesota, Minneapolis, Minn.

SUMMER SESSION

First Term: June 19 to July 29, 1922
Second Term: July 31 to September 2, 1922

More than four hundred undergraduate and graduate courses are offered in the various schools and colleges.

A large corps of competent teachers from the University's regular faculty is supplemented by educators from other institutions. First class libraries and laboratories are available. There will be open lectures, concerts and personally conducted tours. There are excellent recreational facilities and a comfortable summer climate.

Information may be obtained by addressing the Director of the Summer Session, University of Minnesota, Minneapolis, Minn.
